SUMMARY

Software development student with a strong academic background in computer science administration. I am a skilled professional specializing in computer equipment maintenance and installation, as well as software deployment for government entities. With a strong academic foundation in computer science administration, I am driven by a passion for technology and a commitment to delivering exceptional services.

EXPERIENCE

SELPRO Soluciones

August 2023 - September 2023 (2 months)

Web Developer

- ✓ Played a pivotal role in developing and maintaining web applications using modern technologies such as Node.js, Express, and Sequelize, resulting in significant improvements in efficiency and user experience.
- ✓ Designed and implemented database models using Sequelize, enabling efficient data management and rapid data retrieval.
- ✓ Created robust server controllers and handlers to handle incoming HTTP requests, thereby enhancing responsiveness and scalability of applications.
- ✓ Implemented cookie handling to ensure user authentication and session persistence, leading to a smoother and more secure user experience.
- ✓ Utilized Redux Toolkit to manage application state on the client side, enabling efficient data flow and persistent states for seamless navigation.
- ✓ Collaborated closely with the design and frontend teams to ensure consistency and aesthetics in the user interface of applications.
- ✓ Actively engaged in troubleshooting, debugging, and optimizing application performance, resulting in significant improvements in loading speed and efficiency.
- ✓ Maintained a constant focus on adopting best practices in web development and application security, ensuring compliance with industry standards.
- ✓ Collaborated with other team members on agile development projects, using methodologies such as Scrum, resulting in timely and high-quality deliveries.

Xtreme Game

August 2019 - November 2020 (15 months)

Management | Tech support

- ✓ Hardware installation and configuration of computer systems, printers, scanners, and other peripherals.
- ✓ Installing and updating software applications, operating systems, and security patches on cafe computers.
- ✓ Diagnosing and resolving hardware and software-related problems promptly to minimize downtime and customer inconvenience.

Constructora Bienes y Raíces ROTMAQ

August 2016 - February 2017 (7 months)

Tech support

- ✓ Computer equipment maintenance and installation, as well as software deployment for real state and construction company.
- ✓ Assisting with technical queries, troubleshooting and providing reliable solutions.
- ✓ Conducting routine maintenance and performance checks to ensure optimal functionality and prevent technical issues.

Servicio Autónomo de Registros y notarías (SAREN)

February 2016 | July 2016 (6 months)

Tech support

- ✓ Computer equipment maintenance and installation, as well as software deployment for government entity SAREN, Caracas Venezuela.

EDUCATION

Bootcamp Full Stack Developer - SoyHenry

May 2023 - September 2023

JavaScript - HTML - CSS - React - Redux - Node.js - Express - PostgreSQL

Associate Degree in Information Technology

September 2013 - July 2016
